

Creative Change

Creative Change has a busy summer, with programs reaching educators from Texas to New York and our home state of Michigan. Read more below.

Teaching the Ecological Footprint Workshop: August 10-12

Our Ecological Footprint workshop is a hands-on learning experience for educators from across the country. Participants will explore the concept of ecological footprint and its impact on the environment. The workshop includes interactive activities, case studies, and a final project where participants will design a sustainable community plan.

The workshop is designed for educators from middle school to high school. It is a three-day program that takes place in a beautiful setting. Participants will have the opportunity to network with other educators and share their experiences. The workshop is a great way to learn about sustainable living and how to incorporate it into the classroom.

[Registration is now open for the Ecological Footprint Workshop. Space is limited, so sign up today!](#)

Creative Change Works with Texas Youth-Serving Organization

Creative Change is proud to partner with the Texas Youth-Serving Organization (TYSO) to provide educational and enrichment opportunities for at-risk youth. Through this partnership, we are able to offer a variety of programs, including tutoring, career counseling, and leadership training. These programs are designed to help youth develop the skills and confidence they need to succeed in school and in life.

Our programs are designed to be engaging and interactive, providing youth with a chance to learn by doing. We offer a variety of activities, including field trips, guest speakers, and hands-on projects. Our goal is to provide a safe and supportive environment where youth can thrive and reach their full potential. We are committed to making a positive impact on the lives of the youth we serve.

New York Institute a Success
